Through stories, bodies, and the space that we share, Verk Produksjoner attempts to create a contemporary ritual that intensifies the understanding of our interconnectedness. Leading artists, intellectuals and colleagues have shared with us their dreams, anecdotes and thoughts of the present times.

The performance is an ongoing research on our present times. "Beat the drum" is our first step in that process and will be a stripped down version where proximity will be the main focus. Our question and interest is what do you see around you today, what do you wish to see around you today and what are you willing to offer?
