SPRING COLLECTION

An evening of works by dance- and choreography students from The Danish National School of Performing Arts and students of Language, Space and Scale from The Royal Danish Academy of Fine Arts – Visual Arts. Spring Collection is made as a co-production with Dansehallerne. Our starting point is the meeting between our different fields and the multiplicity amongst us. We will spend a month working together, experimenting with different concepts and possibilities and discussing what it means to come from different fields and work together. Our collective practise will eventually transform itself into an evening of performances.
