Our computers and phones, our movies, our social and sex lives run faster than ever before. Our world is becoming a giant Ant City: Building, running, moving things. We are quick-reflexed, multitasking, channel-flipping, fast-forwarding species. Human beings are becoming "human doings". Life is busy. Busy is life. We are alive.

"Cult of Busy" is a visual physical performance reflecting our experience of being busy which seems to be our favorite activity or state of mind.
