Power. Lust. Enthusiasm. Humour. Guilt... The well-known Shakespeare story about the passionate couple who become murderers and afterwards are eaten up by guilt.

Despite the fact, that the performance is based upon the classic Macbethian issues, Asterions Hus' production is far from being conventional. The audience will experience the story being torn into pieces and restored in a playful, sensuous and experimental space.

Macbeth is the third production in the Asterions Hus' trilogy about love. First Robin Hood, then Romeo&Juliette! And now Macbeth about the mature love and lust.
