In a storm of martial arts and erotic clichés, dancer and choreographer Noora Hannula throws herself into a grotesque but hilarious showdown with her virtual rival - a 3D animated virtual girlfriend, Soma, in a wild encounter between modern dance and 3D animation.

Noora Hannula vs Soma - Augmented-Reality Girl - THE ULTIMATE BATTLE is produced by The Nordic Beasts in collaboration with CLICK Festival and BORA BORA. The piece is developed for Culture Yards' holographic stage, The 4D Box.
