That Theatre Company is proud to present Rub-a-dub-dub - a dark comedy about the endurance of human friendship against a backdrop whereby Artificial Intelligence (A.I.) is becoming indispensable in our technological, brave new world. SiSi is a replicant programmed to tell the truth. She observes the 3 humans in this story and records everything. She can even analyse their biometric data and give hints as to how healthy (or not) they may be. When her owner, Neil, announces that he plans to undergo euthanasia, emotions run high. This is when "SiSi the observer" becomes "SiSi the participant", and discovers that to be human you sometimes have to bend the truth. The future is now.
