Dark matter, light being, touch with eyes, touch with heart, touching parts within parts.

Combined substances, luminous flaring.
Seeing, fading, breathing, living warm.

Colliding densities, omni lash, full size, full growth.
Lunar liquids, deep resonance, deep and far.

Bodies of vibration, light and resonance unfold into a rhythmic and sculptural terrain. In this tender volcanic ash narratives with multiple scales of visibility, presence and density, sensuously coalesce, mutate and erode. A place of tectonic shifts, melting and becoming both ancient and unforeseen.

Vibrant Matter is a concert, dance performance and installation created by Sophia Mage and collaborators
