Noora Hannula is a Finnish dancer and prize-winning choreographer, who mostly operates in and around Denmark as the artistic director of The Nordic Beasts dance theatre. Since 2016 Hannula and The Nordic Beasts have focused on themes reflecting on the digital age, researching in topic such as online self, digital partners and constructed intimacy. Her works can be characterized by their extreme physicality, as well as the use of visual media and technology, that together merge into visually multi-layered dance theatre productions.
