Scrambled is a single show featuring a woman's journey to conceive naturally. Due to gynecological disease, her two fallopian tubes were removed. This forces her to go to war. Forcibly, she enters the world of fertility treatments. The Stage is set - As an intimate restroom, a shrine to her solitude, injecting hormones and urinating at a pregnancy test, dealing with inner demons, feminine ideals and relationship issues. watching her longings and desires get drained into a pink toilet from which hope of redemption might come. For her, the outside world, where everyone brings children into the world and builds a family becomes a personal wall, the growing pressure from society and the damaged
