

# OUT OF THE BLUE I & II

Af Asterions Hus

© LaRutan

Out of the Blue I & II are two similar choreographies where the only variable is the costume of the performers. The dancers are in complete synchrony with each other, accentuating the similarities. He is her, she is him. The schizophrenic personalities of the two dancers, the synchronicity of the dance, the variation of the costumes: Out of the Blue is like watching two identical twins dedouble. A very dissociative experience!
